DURHAM UNIVERSITY STAFF CRICKET CLUB

Pre-Audit Financial Statement

I pestponed the audit because several 1966 subscriptions and tea monies are still owing to the Club and I hoped that these particular ships would come home to me

Early in the season we agreed that the money (3/- per game) for teas should be collected at the end of the season. Such faith in the willingness of Club members to jog their own memories was not well-placed and at last I had recourse to the score book for evidence of games played and, by implication, teas consumed. A copy of the resulting reminder is attached. IF all monies owed could be collected then the deficit would be turned into a favourable balance of about £1.

3. Now read on:

The bills at Dunelm House and Grey College have not yet been paid and I have received one subscription (£1. 10s. 0d.) for the 1967 season. Accordingly, we have a balance in our favour at the house of £6. 8s. 10d. (b) The bills at Dunelm House and Grey College have not yet been paid season. Accordingly, we have a balance in our favour at the bank
